

Ground Protection Mats

This Underutilized Work Site Resource Can Save You Time and Money on Your Next Job. Checkers Ground Protection Mats are a versatile and effective solution for any organization that uses heavy vehicles in areas where ground conditions could hinder the vehicle's ability to operate or protect grounds susceptible to damage from vehicle access.

These Mats Work on a Variety of Difficult Surfaces

Do You Experience Any of These Common Problems?

- Downtime on the job because of getting stuck in the mud, ultimately costing you money and precious time from getting on to the next job.
- Too much time and money replacing torn-up landscaping that is preventable with mats.
- Wasting time and money buying plywood for ground protection far too frequently.

Did You Know? You Might be at Risk of Costly Fines

Regulatory agencies like The United States Environmental Protection Agency (EPA) can impose fines of up to \$37,500 per day for each violation of soil compaction regulations. The USDA can impose fines of up to \$10,000 per violation. State and local governments may also impose penalties for soil compaction.

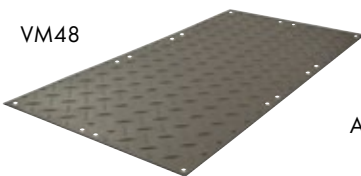

Are You Using Plywood?

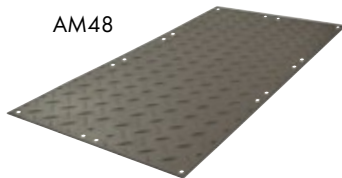

Start saving money in as little as six uses by switching to Checkers Ground Protection Mats. Additionally, Checkers Ground Protection Mats are far more eco-friendly by not requiring trees to be cut down, reusable far longer, and made from recyclable material while also recyclable at the end of their life.
